

COIN AND LAUGHLIN
MEET IN DEBATETHE JOINT DISCUSSION OF THE
MONEY QUESTION.

Author of The "Financial School" and
The Professor of the Chicago Uni-
versity Talk at the Illinois Club
House—Room Too Small For The
Audience—Synopsis of Speeches.

Chicago, May 18.—Last night at the Illinois club house Prof. J. Laurence Laughlin, of the University of Chicago, and W. H. Harvey, author of "Coin's Financial School," debated on the subject: "Resolved, That the United States should enter at once upon the free coinage of silver at the ratio to gold of 16 to 1, independent of the action of any other nation."

There was a great deal of disappointment that the club house could not hold more people, because hosts of citizens sought admission. But the club confined the attendance strictly to its own membership and about 200 invited guests, prominent banking and business men and men that might be selected by Prof. Laughlin and Mr. Harvey. Mr. Harvey opened the debate. He said in part:

"The first reason why I am in favor of independent action by this country is that we should not be subjected to the influences of the governments of Europe. If people can be reduced to poverty and the prosperity of the United States can be ruined by hanging to the financial policy of Europe, then we can be reduced to the same condition by financial legislation as a war of conquest would reduce us. The monometallists mostly say or admit bimetalism would be good if we could get international bimetalism. In other words, they agree that there is something radically wrong, but claim that we are tied to the financial policy of Europe." This Mr. Harvey denied. He went on: "The governments of Europe are plutocrats. They squeeze the lemon for the people about every so often. The few control class legislation and the masses are hewers of wood and drawers of water for the titled few. Now, if financial legislation is one of the classes of class legislation by which the many are robbed and the few are enriched, then it is one of the institutions of the European governments that we as a nation of people, republican in form, should declare our independence of. That is the first reason why independent financial action should be taken by the United States. If they say, 'We must have the same money that they have in order to carry on business with them,' my reply is 'that the biggest business we ever did carry on with the balance of the world, and particularly Europe, was the time when they had gold and silver as money and we had neither. This nation can have an independent financial system without any reference whatever to the balance of the world, and can carry on its own commerce by ocean and by land with the other governments of the world notwithstanding.'

We give them our wheat and we take their silks, and the balance that we may owe them or they may owe us will be settled just as the merchants between the importing points may agree to settle it. They can settle it in gold for so much a pennyweight as measured in the money of their country or our country, or in so much of silver or so much copper, or in so much of any other merchandise that may be agreed upon between them in their trade relations. There is no such thing as an international money.

"Growing out of a long accustomed habit the men who have studiously cultivated class legislation for their benefit have impressed the common masses with certain apparent fixed principles which they are to be controlled by, and one of them is the necessity of international money, just as they have made you believe that national bank money was necessary. Now, the reason behind that is this: They can go to Washington and hypothecate their bonds, draw the interest thereon, get a loan on these bonds to 90 per cent of their face value, without paying any interest, to loan it to you at from 7 to 12 per cent. This is a special privilege. And we have learned this. But we should, it should be a common country conducted for the benefit of all the people."

He defined the position of the silverites thus:

"What we are contending for is the opening of the mints to the free coinage of silver (they are now open to the free and unlimited coinage of gold and have never been closed since 1873) and the establishment of bimetalism on those simple and fixed principles adopted by those statesmen who had in view the interest of no class, but of all the people. What we want is bimetalism. And scientific bimetalism is this:

First—Free and unlimited coinage of both gold and silver; these two metals to constitute the primary or redemption money of the government.

Second—The silver dollar of 37½ grains of pure silver to be the unit of value and gold to be coined into money at a ratio to be changed if necessary from time to time if the commercial parity to the legal ratio shall be affected by the action of foreign countries.

Third—The money coined from both metals to be legal tender in the payment of all debts.

Fourth—The option as to which of the two moneys is to be paid in the liquidation of a debt to rest with the debtor, and the government also to exercise that option when desirable when paying out redemption money.

"Silver is taken money. It has been deprived of that unlimited demand it enjoyed prior to 1873. We would restore to it that unlimited demand. We would open the mints to it again. We would leave the mints open to gold as they are now. We would give silver the same privileges as gold. Restoring to it this unlimited demand would cause the value of silver to rise as compared with gold. This is what we want, what we would do. We would again make the standard silver dollar the unit

of value as it was before 1873. It would thus be a dollar, and the bullion in it would be worth a dollar, as the number of grains of bullion in a dollar would have the right to walk into the mint and be coined into a dollar. No man would take less for it when he could have it coined at pleasure into a dollar. We would make gold coins of the value of so many silver units or dollars, as the law existed prior to 1873. Silver is the people's money. Gold always was and is the money of the rich. We would make both legal tender in the payment of all debts. We would repeal the law of 1873 and the Sherman law of 1890, authorizing contracts (bonds, notes, and mortgages) to be taken payable in gold only. We would allow no discrimination to be made between the legal tender character of the two metals. We would allow no private individual to dictate to the government what its legal tender money should be. We would place the white metal on an equal footing with the colored metal without regard to previous condition of race or servitude."

Talking of the folly of a single gold standard, he made this point: "A corner on beef can not seriously threaten the health of the people of this nation so long as mutton and pork are in competition with beef. A corner on gold could not, as it does now, seriously threaten the credit of this nation if silver were in competition with gold as primary money."

Attacking the recent issue of lands by the government, he said: "The bank of Rothschilds in England is now behind the United States treasury. They are our financial agents, our financial managers. We are paying them the princely salary of \$8,000,000 for each six months of their valuable services. We are now in the hands of the pawnbrokers of Europe. We are a debtor nation and our people and corporations are heavily in debt to the people in England, and the interests on what we owe them amounts to annually about \$250,000,000, payable in gold. They demand gold. The contracts call for it in gold. To pay this we have a balance due us in trade with Europe of about \$100,000,000. That leaves \$150,000,000 still left to pay them. How do we pay it? We produce about \$40,000,000 in gold yearly. We give them that. This leaves about \$110,000,000 still due them. How do we pay it? Out of our reserve stock of gold. With them getting all our money, represented by the balance due us on exports, and all our annual production of gold, and \$100,000,000 annually from our reserve stock of gold, how long is our reserve stock of gold, how long is it to be replenished? There is only one way—that is to borrow it from those who have it, and that means England. And that is what we are doing. That means more interest, more gold annually to be paid to England. Where will it end? It means the 'dismal swamp' and 'hell's half-acre' beyond. This is what having a gold standard means."

Closing his arguments, he declared: "The remonetization of silver would put our manufacturing at work. There is only \$1,400,000,000 of silver in the world that is not in the coins of the established government. It would be the very best thing that could happen to this country if we could trade what is claimed to be \$600,000,000 of gold in this country (but in truth less than \$400,000,000) for all the silver of the world." He declared the governments of the world were waiting for the United States to act, ready and eager to follow. In the restoration of silver to its proper position, he closed: "If an undue and unrighteous influence by schemers and tricksters abnormally enhances the value of gold so a commercial parity at 16 to 1 cannot be maintained, then do as our forefathers did, change the ratio, and make the change in the weight and size of the gold coins. Monroe and Jackson did it. They were not called dishonest for doing so. They were legislating in the interest of the people and not in the interest of the favored few. We are not compelled to keep the legal ratio at 16 to 1; we can change it to 20 to 1, if necessary, to fix the legal ratio to correspond with the commercial ratio, but if the change is made let us make it in the rich man's money. To lessen the size of the gold coins makes more dollars. To increase the size of the silver coins makes less dollars. A parity at the same ratio is practicable as admitted by the experience of ages. This is what we ask."

"This is a question of capital on one side and humanity on the other, of sound money—the sound of the clod on the coffin—on one side and sound money—the sound that has the honest ring of the people's money in it—on the other side. It is a question of an English policy or an American policy. Which shall it be?"

Prof. Laughlin's Address.

Prof. Laughlin, in his answering address, spoke as follows:

"Mr. Harvey has said there was a greater trade with Europe during the times when there was a free coinage of gold and silver than since 1873. I have turned to the statistical abstract of the United States for 1894 and find that in 1873 the gross sum of both exports and imports of the United States was eleven hundred and sixty-four millions; in 1894 fifteen hundred and forty-seven millions. Certainly that statement is not accurate." Prof. Laughlin also denied that we paid for our foreign goods by a drain on our gold. He made this point: "Silver has lost its stability of value. It is no better than ordinary metal for stability. The action of India sends it down 20 per cent. The mere rumor of the Chinese indemnity sends it up 10 per cent. The more money there is roaming about in circulation is no reason why any one gets more of it. Money, like property, is parted with for a consideration. It is only the machine by which goods are exchanged against one another. No matter how valuable it is not wanted for itself. Do we insult any one's penetration by supposing that the congressional kings are going coaching about the country distributing their money for nothing? Our farmers are no fools. They know they can get more money by producing more commodities to be exchanged for it, and for those commodities they want as good money as any other men in the country have got."

Of the act of 1873 he said: "Prices since 1873 have not fallen because of a lack in the quantity of money. Free

coinage of silver at 16 to 1, means single monometallism; 16 to 1 is a single silver standard and we will start with all the South American countries and Mexico. Free coinage of silver then is absolutely certain to drive all gold out of circulation. The mere hint of it did that in the panic of 1893. May 1, 1895, the first of this month, there were \$588,000,000 of gold in circulation. Since gold must be inevitably driven out if free coinage of silver is had there will be no increase in the quantity of money. If the people who support free coinage hope to increase the quantity of money it is perfectly evident on the face of it that it will contract the currency by the total amount of \$588,000,000. As free coinage of silver would inevitably result in a rise of prices it would immediately result in total fall of wages. Its first effect would be to diminish the purchase power of all our wages. The man who gets \$500 or \$1,000 a year as a fixed rate of wages or salary will find he can buy just half as much as now. Free coinage of silver would make all the articles of the laborer's consumption cost him 100 per cent more unless he can get a rise in his wages by dint of strikes and quarrels and all the consequent dissatisfaction arising from friction between the employer and employee. He would be able to buy only half as many articles of consumption as he had before."

The bonded debt of the railways in the United States is about \$6,000,000,000. If free coinage of silver were introduced it would enable these railways to pay off their debts with what is now equivalent to about \$3,000,000,000. They would thus be relieved of the necessity of paying the small investors who have taken their bonds one-half of what these corporations now owe them, and it is only a few of such corporations and railways that have outstanding indebtedness that has run a long time and which could have been paid before the period of 1873."

He closed his argument with the following statement:

"In conclusion, extraordinary as is the proposal for free coinage, it is in truth only a huge deceit. It was born in the private offices of the silver kings, nursed at the hands of speculators, clothed in economic error, fed on boodles, exercised in the lobby of congress, and as sure as there is honesty and truth in the American heart it will die young and be buried in the same ignominious grave wherein lies the now-forgotten infant once famous as the rag baby. Free coinage is greenbackism galvanized into life. That heresy in its old form of a demand for more money has already been laid low. It will not long deceive us in its new form of a demand for more silver, for silver flatism, nor in any other respect is it what it presumes to be. It is not a predecessor for bimetalism. It is a wild leap in the dark for silver monometallism. Under the cry for more money are veiled the plans of a giant syndicate of mineowners and speculators, who have hoodwinked the people in certain parts of the country and who are still diluting them with a specious arguments for more money, and are laughing in their sleep at a constituency so easily gulled."

DECISION WILL BE ADVERSE.

Report That the Income Tax Will Be Declared Unconstitutional.

Chicago, May 18.—A special dispatch from Washington to the Chicago Tribune says: Chief Justice Fuller has completed writing a decision which upsets the income tax law entirely and wipes it off the statute books. The decision has been put in type, returned from the printer, and is now being considered by the majority justices solely on the ground of its general expressions. The law itself is a thing of the past. The conference of Saturday developed the fact that Chief Justice Fuller, Justices Field, Gray and Brewer were still opposed to the law as a whole. Practically the whole court was willing to exempt state and municipal bonds. A majority of the court, including Justice Jackson, was opposed to the tax on rentals. An apparent majority was in favor of upholding the law as a whole, but just at this juncture Justice Shiras, who wavered during the first hearing, took his stand with the opponents of the law and then the chief justice went to work on his opinion, knowing it would go down into history as the decision of the court. It will almost certainly be handed down Monday, and the chances are there will be several individual opinions delivered at the same time.

ACCEDES TO OUR DEMAND.

Final Answer in the Alliance Incident Completed at Madrid.

Madrid, May 18.—The Spanish government has completed its final answer to Secretary Gresham's dispatch concerning the Alliance incident, and it will be called by Minister Taylor to Washington. The text of the reply will not be given here, but it is known to be entirely responsive to Mr. Gresham's requests and to be in a most cordial and friendly spirit.

Coal Mining Situation.

Pittsburg, Pa., May 18.—The associated coal operators of this district are courting trouble. Following up their proposition that they would pay 69 cents if the Pittsburg and Chicago and the New York and Cleveland companies men could be brought out, F. L. Robbins announced they would import negroes from Virginia and pay them 60 cents a ton. Fifteen imported men went to work yesterday. The miners are angry at this turn of affairs, declaring they will have 69 cents. They are making preparations to prevent the new men from going to work and to bring out those now working.

Dynamite in a School House.

Middletown, N. Y., May 18.—The school house at Phillipsburg, near here, has twice been burned within recent years. It is alleged, by spiteful persons, a schoolboy found several dynamite cartridges and a box of caps in the coal box in the building. They are believed to have been placed there with the intention of blowing up the building. Twenty-five children attend this school and their parents have become greatly alarmed over the discovery.

RUSSIANS ROASTED
IN THEIR HOUSES

THIRTY LIVES LOST AT BREST-LITOWSKI.

Whole Town Was Totally Wiped Out Last Night—English Warship Trains Its Guns On Villages In the Solomon Islands—General News of Foreign Lands.

St. Petersburg, May 18.—The town of Brest-Litewski, in the province of Grodno, Russian Poland, was completely destroyed last evening, and thirty persons were burned to death. Brest-Litewski was a town of about 40,000 inhabitants.

San Francisco, Cal., May 18.—According to reports received here England took very drastic measures in the punishment of the natives of the Solomon group of islands, and the villages at the mouth of the River Soy were canonized. A landing party started out from Verne, an adjacent town, and the savages were driven miles into the interior. A number were slaughtered. For four hours Soy was under fire.

The trouble and the subsequent bombardment were brought about by the murder of a Mr. Donald Guy last April and the subsequent murder of eight English sailors, who went ashore at the Island Malaya to enjoy a good time. The month after Guy was murdered the crew of the brig Para was also fired upon by the natives. Two men were wounded. The Royalist proceeded up the Soy river, cleared for action and in ten minutes literally blew the village of Soy off the face of the earth. The Royalist then steamed to Malaya Island and anchored off the town of Al-tai. The ship's guns were turned on the village and a quick fire opened. Two cutters steamed close to the beach and poured shot into a little bunch of natives that were defending the chief's palace. Many were killed or wounded. One after another three villages were totally destroyed, the natives driven to the bush and the residence of one of the principal chiefs of the Solomon group blown to pieces.

Judgment Against New York Sun.

London, May 18.—The libel action which the Reuter Telegram company brought against the New York Sun and the Central News, as the distributor of the Sun, for an article which appeared in the Sun Oct. 28, 1894, headed "Spurious News of the Eastern War," has resulted in a judgment against the Sun in the Queen's bench division of the high court of justice, the Sun not appearing. Action is pending against the Central News.

Titles Enough to Crush Him.

London, May 18.—The Duke of Hamilton and Brandon has died at Algiers, aged 62 years. He was premier duke of Scotland, hereditary keeper of Holyrood palace, deputy lieutenant for the counties of Lanark and Bute and a magistrate for Suffolk. He had no male issue.

Hard on Corbett.

London, May 18.—The Star, commenting on Corbett's utterances, says: "Corbett knows he is likely to get a show here, but we should like to see Jackson give that American gasbag a thorough thrashing."

UNDER FALLING WALLS.

One Man Killed and Two Injured at Chicago.

Chicago, May 18.—One man was killed and two others seriously, perhaps, fatally, injured by the falling of a ruined wall at Henry and Brown streets yesterday afternoon. The three victims of the accident belonged to a gang of men engaged in tearing down the walls of the building formerly occupied by the Globe Molding company, which was destroyed by fire March 2. Twenty-two men had been working on the job before 12 o'clock, and had vainly tried to pull down the section of wall which subsequently fell. This wall had been undermined, and though all the men tugged at it with a rope, they failed to pull it down.

When the men resumed work at 1 o'clock in the afternoon orders were given to remove more brick from under the wall, and scarcely had the men started to obey when the whole wall 40 feet high and 125 feet long, came down about their ears. Some of the men perceived their danger in time to get out of the way, but three of them were caught among the falling brick.

Mores Segell, the subcontractor in charge of the work of demolition, was arrested. He said he had no doubt the accident was caused by a sudden gust of wind. He was confident not a single brick had been removed after the men resumed work in the afternoon before the wall fell.

Little Business Done.

Springfield, Ill., May 18.—Little business was transacted by the house yesterday and the senate adjourned without doing anything.

In the senate the teacher's pension bill was advanced to a third reading. Merriam called it up and Leconte's motion to strike out the enacting clause was voted down. Curley called up his bill providing that convict-made goods shall be stamped as such and it was advanced to a third reading.

Injured in a Street Car Collision.

St. Paul, Minn., May 18.—An accident occurred on the inter-urban electric street car lines last evening. Owing to a failure of the brakes to work two cars loaded with people returning from the ball game met in a rear end collision. Ten persons were injured, none very seriously. The front car had stopped to take on a passenger and the train behind crashed into it.

Will Call a Mass Convention.

Indianapolis, Ind., May 18.—Indiana populists will announce in a few days a mass convention to be called for a conference on the silver question.

LATE NEWS BY THE WIRE.

Mystery At La Porte, Indiana.

La Porte, Ind., May 18.—The skeleton of a white man was found in the street this morning by workmen who were excavating. The head had been crushed in and the cause of the man's death is a mystery.

Railroad Men Killed.

Summerville, N. J., May 18.—A disastrous freight wreck occurred this morning on the Jersey Central resulting in the death of the engineer and the fatal injury of the fireman and conductor.

Toads For Hawaiian Bugs.

San Diego, May, 18.—Hawaiian Consul Deigo has received an order from his government for five hundred horned toads to destroy the bugs that are eating everything in sight.

Gail Hamilton Worse.

Washington, May 18.—Gail Hamilton [Miss Abigail Hamilton Dodge] is much worse today and is at the point of death.

Filibusters Steal a March.

Key West, May 18.—A filibustering expedition left here for Cuba while the Spanish warship was in quarantine at Tampa.

Secretary Gresham Better.

Washington May 18.—Secretary Gresham is improved today.

REPORT ON SCHOOLS.

Presbyterian General Assembly Settles Down to Work.

Pittsburg, Pa., May 18.—The general assembly of the Presbyterian church opened yesterday with divine services, and the first business meeting was largely attended in anticipation of the report of the committee on control of seminaries, which is one of the principal subjects to come before the assembly. Dr. W. L. McEwan of Pittsburg, for the committee on arrangements, delivered an address of welcome. He then presented the moderator with the gavel made from wood from the Holy Land.

Moderator Booth responded, accepting the gavel with a pleasing address. The report of the committee on seminary control was read by the clerk. The committee has held conferences with the following seminaries: Two with the Princeton boards, two with the McCormick boards, and one with each of the following: Auburn, Western, Lane, Danville, San Francisco, Newark and Lincoln university. Immediately after the meeting of the committee at Saratoga it addressed a letter, through its chairman, to each of the boards of the seminaries, and the answers received are appended to the report.

The committee presented the following propositions to the seminaries:

1. That the seminaries should amend their charters with a clause declaring that they held their property in trust for the general assembly of the Presbyterian church.
2. That no election of trustees, directors, or other governing officers of seminaries should take effect until approved by the general assembly.
3. That the election, appointment or transfer of professors should be submitted to the approval of the general assembly.
4. That the seminaries change their charters with a clause declaring that in the event of the misuse or diversion of the funds or the property the general assembly should have power to provide against such abuse by appealing to the civil courts.

In view of the answers of the seminaries the committee reported that Omaha and Dubuque have adopted all of the recommendations of the general assembly.

The directors and trustees of Princeton do not favor the propositions.

The board of directors of the Western seminary at Allegheny sees no reason to ask any change in existing relations to the assembly.

The board of directors of Danville has resolved to adopt the recommendations as to by-laws and as a part of their constitution.

San Francisco being under syndical care has deemed it best to defer action on the recommendations until after the next meeting of the synod.

On motion the discussion of the report was made a special order for 3:30 this afternoon.

The report of the committee on Lane seminary at Cincinnati was then heard. The committee reported that additional teachers are needed. They found the board of trustees ready to do all in their power to bring the seminary into closer relations with the church. The recommendations of the committee were that the board be urged to continue, and that additional teachers be employed and thus bring the seminary into the support of the Presbyterian church. This report was received and will be discussed later.

The report of the committee on Sabbath observance was read by William R. Worrall and adopted. Among other things it said: "We heartily commend all Sunday legislation designed to protect the Christian Sabbath as a day of rest and worship."

Dr. Johnson, of Chicago, recommended a day of prayer every year for Sabbath observance. Dr. Kneeland, of Boston, spoke on the topic, especially condemning Sunday newspapers and their readers and advertisers.

Dr. Hubbard, of the committee on the Assembly Herald, submitted his report. The expenses for the first ten months of the paper's existence, when over a million copies were issued, were \$11,904. The income was \$19,774. The monthly circulation will soon be 400,000 copies.

The last weekly prayer-meeting in October was, by general consent, set aside as the yearly prayer-meeting on Sabbath observance.

During the morning the Committee on Church Unity reported a plan for a Protestant union to thwart Roman Catholic attacks on public schools, and the assaults of Anarchists and Socialists on all religion and the marriage laws. No action was taken on the report yesterday.

The reports of committees showed the finances of the church to be in most excellent conditions.

THE REGENTS HIRE
NORMAL TEACHERSTWELVE MORE INSTRUCTORS
ARE SECURED.

This Action Was Taken at This Morning's Meeting And The Salary List of The Various Institutions of That Kind Is Thereby Increased By Twenty Thousand dollars.

Madison, May 18.—[Special]—The regents of the state normal schools met this morning and transacted some important business, it being the providing to twelve additional teachers for the normal schools and the increasing of the salary list in those institutions \$20,000.

THE COLD SNAP HURTS TRADE.

R. J. Dun & Co's. Report Is To That Effect This Week.

New York, May 18.—R. G. Dun & Co.'s weekly review of trade, says: "The severe cold snap, with extensive frosts, and in some states snow, has fortunately done little damage to the great crops, though much to fruit, but has considerably reared retail trade. The best news of the week is the advance of 10 per cent in wages by the Carnegie works, followed by the Jones Laughlin establishment, and evidently implying a similar advance by many other concerns. No advance has been found practicable in the woolen mills, where conditions as to prices and foreign competition are very different and about 10,000 workers are still idle at Olneyville, where the works should consume 600,000 pounds per week. In other departments of labor troubles are not serious, and the demand for manufactured products increases."

"With material and steady enlargement in domestic trade there is still great want of employment in the interior for money which comes hither—\$3,500,000 during the last week—and with the millions distributed by the syndicate on bond account stimulates speculation. Accordingly wheat has risen five cents, although the reports of injury by frost don't appear, upon sifting, to concern any considerable proportion of the growing grain. Western receipts for two weeks of May have been 2,917,305 bushels, against 2,690,238 last year, and Atlantic exports 3,053,454, against 4,565,101 last year, being reduced by the advance in price less than would be expected because of generally current reports of decrease of acreage. With only six weeks of the crop year left the stocks in sight constitute a heavy surplus, if not as large as some western statisticians estimate. Corn has advanced only ½ cent, being apparently injured more than wheat, but the acreage gives promise of a yield of 2,000,000,000 bushels."

"Cotton is an eighth stronger, in spite of the fact that 9,518,081 bales had come into sight last Friday, which is over 600,000 bales more than the largest crop ever recorded. Goods are in fair demand for the season and the advance in prices is maintained."

"Wool was remarkably heavy for the last week at the three chief markets, the sales being 5,536,750 pounds, and for two weeks of May 11,059,750 pounds, against 11,767,750 in the same week of 1892, the last year of full demand. In that year the sales of domestic were 5,962,000 and this year 5,581,750 pounds. "Failures during the last week have been 211 in the United States, against 219 last year, and 37 in Canada, against 24 last year."

MUCH OF INTEREST IN LOCAL PULPITS

TOMORROW'S SERMONS WILL COVER A WIDE FIELD.

Confirmation Rite at the Episcopal Sanctuaries—Memorial Service for Little Freddie Bennett at the First M. E.—Rev. S. P. Wilder at Fort Atkinson—Missionary Concert.

SERMONS in Janesville churches will be of interest tomorrow and the subjects treated are as live as they are varied. Rev. Isaac Lea Nicholson, bishop of this diocese, will administer the sacrament of confirmation in the Trinity church at 10:30 in the morning and at Christ church in the evening. At the First M. E. church memorial services for Little Freddie Bennett will be held in the morning. Baptist young people will give a missionary concert in the evening. Rev. W. W. BLOOMERS CREATED A SENSATION

Milton Junction People Open Their Eyes In Astonishment.

The good people of Milton Junction are not yet accustomed to bloomers, and the News of that village, has taken a stand against the new idea. "On brief visits to Chicago, Milwaukee and Janesville the past year, we have caught fitting glimpses of the so called new woman, as she flashed by on her bicycle," that paper says. "We have read pithy paragraphs ridiculing her in the daily papers, and we have seen her caricatured in Puck, Judge and Truth, and she had our sympathy, but now all this has changed since we had a good, square look at one who rode up from Janesville the other day on her bike, attired in bloomers and dark colored leather leggings. She didn't look so bad as she whirled by, but when she got off and stood upon the ground—Great Scott! what a sight, and what a fright she looked. Say, the papers haven't been half hard enough on her, if this was a fair sample. If the new woman only knew that her chief charm lay in her womanliness, and that she is never more pleasing than when attired in a soft, flowing gown, she would not attire herself in such an unbecoming costume as the one described, a costume not in keeping with the indescribable grace of manner that makes her the beau-ideal of humanity."

MILLARD DUG UP A RARE COIN

Milton Man Uncovers a South Guinea Copper Tuesday.

While James Millard was digging in his garden at Milton Tuesday he turned out a rare old coin which had mysteriously found lodgment there. The coin is of copper, somewhat larger than a silver dollar and has upon the obverse surface a globe surmounted by a crown, with the inscription, Mariaidg Regina, Portet D Guinea with a coat of arms stamped into the surface. The reverse has Africa Portugueza Macu 1789. It would appear that the coin belonged to South Guinea, Africa, a dependency of Portugal in the reign of Queen Maria who succeeded to the throne of Portugal in 1777.

GOSSIP FROM WISCONSIN.

A CAREFUL canvass of Waukesha, Rock, Grant and Eau Claire counties, which was recently made, shows that not more than 25 per cent of the children are in Sunday schools. Richland county has 6,795 children between 4 and 20 years of age and only 1,400 of all ages are in Sunday schools.

AN O'er True Tale

Is a tale overdone. A harrowing tale is a tale a farmer tells. A sorrowful tale is one told by some of our "first citizens" to their family after trying to ride a bike. A dog's tail—but that is another story, a tale told by a wag.

This tale is still another. We have an overload of real estate and we are going to unload. We offer a nice place, house, barn, well, some nice fruit and nearly three acres of land in the city for \$1,400 easy payments, the land alone is worth \$1,500 the buildings \$1,000.

We offer a nice little home with barn, city water, and other desirable features, in the heart of the city for \$1,300.

We offer a good new six room house with very large lot, well located, for \$1,200.

We are building a very nice home, very central and beautifully located. We will sell it at \$250 less than it is worth.

We are building another a little farther out with a good large barn and very large lot, city water both to house and barn, we will sell for \$1,700. This is a lovely home for any one.

We have homesites till you can't rest, at prices from \$150 up to any price you care to go and any one of them is the best in Janesville for the price.

Home-seekers and investors both always can find at our office just what they want. We are headquarters on real estate of all kinds.

We also have money to loan on real estate, and can please you in this line, too.

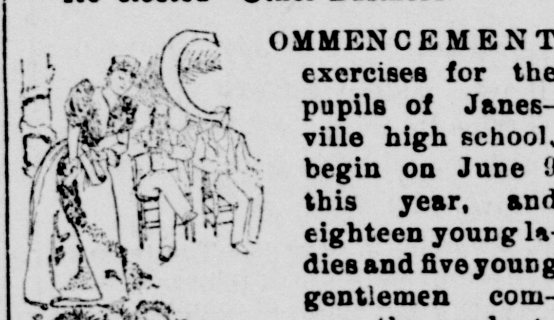

Come in and see us when you feel like talking about a deal in our line. Yours very truly,

GEO. L. & SARAH H. CARRINGTON.

SHEEPSKINS READY FOR TWENTY-THREE

GRADUATION EXERCISES WILL BEGIN ON JUNE 9.

The Outline of the Ceremonies Made at the School Board's Meeting Last Night and The Details are Left To a Committee—Superintendent Mayne Re-elected—Other Business.

COMMENCEMENT exercises for the pupils of Janesville high school, begin on June 9 this year, and eighteen young ladies and five young gentlemen compose the graduating class. According to a resolution adopted by the board of education at a special meeting held last evening, the exercises will begin on that day, and occupy the most of the following week. Nothing but an outline of the programme was arranged last evening, details being left in the hands of a special committee of the board, consisting of Commissioners Shearer, Anderson and Cunningham.

On Sunday evening, June 9, the commencement exercises will open with an address to the graduating class. This address will probably be delivered by Professor Butler, of the Chicago university.

Produce Julius Caesar.

Tuesday evening, June 11—The junior class will give a production of Shakespeare's "Julius Caesar," at the opera house. The juniors have been drilling for this occasion under Mrs. J. B. Day's supervision, for some time, and will no doubt give an entertainment worthy of the occasion.

Thursday, June 13—The commencement exercises will be given in the opera house. Essays, none of which exceed seven minutes in delivery, will be read by the graduates. The Columbia Male Quartette of Chicago, will furnish the music. President T. W. Goldia will present the diplomas, and in the evening the Columbia Male Quartette will give the commencement concert at the opera house. The board voted to furnish invitation cards for the seniors, and also carriages for the afternoon and evening. It is understood that the seniors will appear on the stage in the exercises of the afternoon in uniform costume, the cost of which does not exceed five dollars a costume.

Friday evening, June 14—Annual banquet of the High school alumni at Columbia hall.

Members of the Class.

The senior class consists of the following ladies and gentlemen: Abbie Atwood, Grace Brownell, Lenora Casford, Frank Cuddeback, Henry Cody, Luella Davey, Edmund Enright, Laverna Gillies, Beulah Hodgdon, Edward Halverson, Gertrude Mosher, Marie McClernan, Edith Noyes, Ellsworth Owen, Elizabeth Palmer, Mattie Shoppell, Eliza Stoddard, Agnes Shumway, Alice Williams, Nellie Welch, Margaret Woodruff, Katharine Wiggin and Etta Zache.

The board re-elected Superintendent D. D. Mayne for the ensuing year, at the same salary—\$1,800. Fred E. Clemous was elected census taker, to take the school census, at a salary of \$140.

The building committee was directed to cause the removal, or rather the omission of a partition in the vice principals room, in the new high school building. No other business of general interest was considered.

OUR enviable reputation as sellers of reliable footwear is to be maintained. We have no time nor disposition to dabble in out of date ancient shoes. We only care to deal in the best the earth produces in our particular line, and leave the trash deals to people who have a trade for it. Brown Bros. & Lincoln.

STEAMBOAT AGENTS ON A CHASE

Green County Correspondent Made a Mistake On the Number of Passengers.

For some time past a Green County farmer has been corresponding with a number of the agents in Chicago who represent the leading Ocean Steamship Companies, with the intention of securing rates for at least twenty-one people. The companies in Chicago took quite an interest in the matter and sent three agents to Green county to investigate. After hunting the county through and through they found but two persons who ever had an intention of going across the sea and it didn't take the agents long to tell the Green County correspondent what they thought of him for allowing them to take the trip for nothing. They passed through this city on their way back and hadn't gotten over being mad yet.

BRIEF BITS OF LOCAL NEWS

WINSLOW & Lowell commenced this morning to sell the finest stock of shoes in the city. All of the best made goods of the best factories in the United States. Have large lines of both Janesville factories. Will say this is no bankrupt stock of old goods, but the best and finest in the market. Everybody can tell the price of every shoe in the store. Every shoe marked in plain figures, and we cut every price in two. Every shoe marked \$1 our price is 50 cents. Every mark cut square in two. Remember we have not come to fight any shoe man in the city. It is becoming a department store, and this is the start. May have some other stock in a week or ten days. Winslow & Lowell.

THE more we speak of our stock the better we like it. Its such a grand display of shoes, no such workmanship or styles are shown in any other house in this burg, and we bought so cheap and are selling so cheap, 50 cents on the dollar, for such make of shoes as Strong and Carroll, Banister, Nettleton and all the other high grade boys. Who can meet us? Who can benefit the people in general more? Not one, we are the sole benefactors in the shoe business in Janesville and hundreds are taking advantage of it. Becker & Woodruff.

HARMONY and concentration are, we think, the two strongest elements in the success of any business. We want a friendly feeling to exist between our customers and us. We want you to feel at home in our store; we want you to feel as though you had sort of a proprietary interest in our business; as though our success was your success, and we will concentrate our every effort to make our store your store; our bargains your bargains. Brown Bros. & Lincoln.

We began this sale with \$18,000 worth of our own goods and \$12,000 worth from Fond du Lac, making in all \$30,000 worth of the finest shoes ever in the market. No old style shoes can be found here. No paper shoes can be found here, and every time you lay down 50 cents you get a dollar's worth in return. We know all about the shoe business and the reputation we have built up here as "foot fitters with fine shoes" stands behind all this, and we expect to remain in this business. Becker & Woodruff.

ANYBODY would suppose that the shoe trade was on the verge of dissolution, or as the poeticaly profane man would remark is simply "going to —." It is not. There never was a better demand for reliable shoes than at the present moment. Folks have tried the cheap shoes and now demand honest shoemaking. One pair is sufficient to convince the ordinary buyer that it pays to buy better goods. Brown Bros. & L.

We have the general agency for the "Regina" music box, the finest American made music box in the country. It will play all kinds of steel sheet music as perfect as it can be played, and the music is sold at the same price as any sheet music, and never wears out. This is one of the most desirable music boxes ever offered for sale. F. C. Cook & Co.

Not a shoe in the house but what is worth its face value and were they owned in many places, would be sold at 100 cent on the dollar, but we bought so cheap, we are selling at 50 cents on the dollar and guarantee every pair. Becker & Woodruff.

We are doing the buggy business of Janesville this year. It's the first time in the history of the city that the Henney buggy has been here. Many people have had to go to Freeport to get this buggy. They are the best, and we're selling lots of them. F. A. Taylor.

TECKS and four-in-hands are now much sought after by the ladies to be worn with the now popular shirt waist. We have just received one hundred dozen new ones and you want to get first choice of this lot. Come in and see. Bort, Bailey & Co.

If it's low prices you want, you need go nowhere else, as we are selling the best make of shoes there is at prices equally as low as any so-called bankrupt shoes are being offered. Lloyd & Son.

Not a poor shoe in the lot, never saw a nicer, cleaner stock. We knew it when we bought it, and knew we would be praised when offering for 50 cents on the dollar. Becker & Woodruff.

ALL leather shoes, every pair warranted is the kind we are selling today and tonight see the cut prices named in another column. Lloyd & Son.

ALL that are interested in reorganizing the Sunday school in LaPrairie, are invited to the Grange hall on Sunday afternoon at 3:30.

CHARGE J. E. JONES WITH UGLY CRIMES

HORSE STEALING AND ATTEMPTED MURDER ALLEGED.

Platteville Man Passes Through Janesville in Charge of Deputy Sheriff Fawcett En Route For the Scene of The Misdeeds That Are Laid To Him.

J. E. Jones didn't look very happy as he alighted from a train at the St. Paul depot this morning, a fact that was not at all strange. What would you think if Deputy Sheriff Fawcett of Platteville, was your traveling companion and you knew that when you reached that place they would charge you with horse stealing and attempting to kill your wife? That was the boat that Jones was in.

Deputy Fawcett captured Jones at Racine last night and they passed through the Bower City today enroute for the scene of Jones' alleged misdeeds. Grant County officers had been looking for Jones for some days, all of which time he had been safely housed in the Racine lockup. Jones arrived at that place on Wednesday of last week and was driving a horse and cart. The police thought his appearance was suspicious and asked him to give an account of himself. He represented himself to be a traveling mason, and said that he went about doing odd jobs of work for the country people. The police were not satisfied with his explanation and committed him for five days on a charge of disorderly conduct, in the meantime notifying the officers of neighboring counties of their suspicion that the man was not all right.

Wrote to Platteville.

Finding a letter in his pocket addressed to "J. E. Jones, Platteville," they wrote to that city, and their letter brought the deputy sheriff to Racine. Deputy Fawcett says that several years ago Jones married a Platteville widow, but that the marriage had not been a happy one. One morning a week or two ago he hitched up his step-son's horse and cart, and his wife, believing he was about to elope with another woman, attempted to dislodge him from leaving home. While Jones went into the house to secure his military papers, which are necessary to draw his pension, Mrs. Jones went out and got into the cart. Her husband carried her cut into the country several miles and drawing a razor from his pocket, flourished it about and lashed his wife across the shoulders with it, threatening to kill her, after which he threw her out and drove away.

Jones claims that the horse and cart belong to him—that he bought them from his step-son.

CONGREGATIONALISTS TO MEET

Annual Convention of the Beloit District To Be Held Next Week.

The fifty-fourth annual convention of the Beloit district Congregationalists will be held at that place May 21 and 22. There will be presented the report of the committee on improvement of public worship, three minute reports from churches, and a paper on "Moral Training in Public Schools," by the Rev. E. C. Barnard. The convention sermon will be preached in the evening by the Rev. J. Collie. On Wednesday the Rev. Dr. Blaisdell will give an address on "The Relation of Doctrine to Christian Life and Character."

It's Waterproof.

Interlined "Celluloid" Collars and Cuffs turn water like a duck's back and show neither spot nor soil. They are not affected by perspiration, and always look as if right out of the box. When they get soiled you can clean them in a minute by simply wiping off with a wet cloth. These are but a few of the advantages of wearing the "Celluloid" Collars and Cuffs. There are many others that you will readily discover the first time you wear one.

They are the only waterproof interlined collars and cuffs made. Be sure to get the genuine with this trade mark.

Not So Stupid as He Looks.
 Jane—You seem to be unhappy, Emma.
 Emma—Yes; I have been deceived in my husband. When I married him I supposed that it was not my money but myself that he loved.
 "And now you have found out that it was not you at all, but only your money he was after."
 "Alas! that is what I know now for a certainty."

THIS DAY IN HISTORY

1675—James Marquette, missionary and explorer, died near Marquette river, Michigan; born in France 1637. Marquette was one of the first Europeans certainly known to have discovered and explored the Mississippi river. In 1673 he conducted an exploring party from Quebec and entered the great river at the mouth of the Wisconsin. Pursuing the voyage in canoes as far as the mouth of the Arkansas, or the thirty-fourth parallel, the explorers found the lower Mississippi infested by bands of armed savages and returned north. Marquette wrote a narrative of his travels, which is one of the most interesting documents of the period. He spent his last days as a missionary among the Miami Indians.
 1804—Napoleon Bonaparte was declared emperor of France.
 1864—Nathaniel Hawthorne, author, died in Plymouth, N. H.; born 1804.
 1875—5,000 lives lost by earthquake in Colombia, South America.
 1882—Sir Henry Cole, English critic and editor, patron of educational art, died at South Kensington, England; born 1808.
 1882—Cyclones devastated large districts in Wisconsin, Minnesota, Illinois and Missouri; hundreds of people killed and injured.
 1894—Fierce storm on Lake Michigan, followed by numerous wrecks and heavy loss of life among sailors.

THE EX-TREASURY CASES.

The Recorder and other democratic papers around the state are attempting to make political capital, out of the action of the legislature, in relieving the ex-state treasurer, from the burden of interest, placed upon them by the supreme court.

It is well for the democratic press that a topic has at last been discovered, that is debatable, for national issues have long since been abandoned in disgust.

The Gazette is aware of the fact, that in discussing this question, a large element of popular sentiment is with the supreme court decision, and the democratic cry of reform and economy, is taken up with vigor and enthusiasm. Another element, more conservative and, equally numerous, believes that while the supreme court was justified in its decision from a legal standpoint, that the law of precedent and custom that had so long prevailed, not only in Wisconsin, but in many other states, was a strong argument for the treasurers, and entitled to some consideration. To be sure it was political capital for the democratic party, and contributed to its success, but in the light of more recent events, including roster contracts and jobbery, democracy has little occasion for self emulation.

Whether the legislature did a wise thing in remitting a portion of the fine imposed, may be a debatable question; that the action is endorsed by popular verdict, is apparent; aside from its strictly legal aspect, it is difficult for many people to determine why the treasurer should be compelled to pay a higher rate of interest than the state demands of banks, or other custodians of public funds. If the same law had been enforced during the terms of the unfortunate state officials, that now exists, the state would have been fortunate to keep her money loaned at three per cent.

From a commercial standpoint, the right of the state to accumulate the people's money for the purpose of loaning it in competition with banks and private capital, is decidedly questionable. If there is any good argument in favor of the state raising by tax a surplus fund of several hundred thousand dollars, instead of leaving it in the possession of the tax payers, until needed, it has not yet been advanced. The Gazette does not hesitate to say that the legislature, possessing the power, exhibited a spirit of humanity in relieving the ex-treasurers from a burden which they were legally bound to discharge, and while the men who insist on the pound of flesh, and the democratic party may whine about the action, popular sentiment generally will endorse it. The state has already received her maximum of interest 3 per cent. She is better able to lose a few thousand dollars than are a few men to pay an exorbitant rate of interest.

The Indians at the Rosebud Agency are likely to cause serious trouble because of arrests that have recently been made for bigamy. Their marriages like all other tribes are according to Indian customs and are pronounced illegal. This is a hard world for the poor Indian.

The Turkish outrages in Armenia are fully verified by the European commission. In fact, the result indicates that the half has never been told.

The United States court at Rochester, N. Y., was obliged to adjourn because the legislature failed to make the proper appropriation for its support.

FREE SILVER WILL WIN

The money question has at last been settled beyond a shadow of a doubt, and free coinage will carry the day. The Gazette hates to make this admission but is forced to and will explain its change of base as follows:

Down in Beloit there is printed a newspaper called the News, the name however, being a misnomer. The publication is in favor of free trade, free silver and free whisky. In a recent issue they flaunted the fact that forty-one people in the city of Beloit were for free silver. The population of that town, is, The Gazette believes, about eight thousand people, and if forty-one of them are for free silver, that settles it, and the Chicago Tribune, the Times-Herald and all the other honest money papers, should be informed of the state of affairs at Beloit before it is too late for them to change their views. With the Beloit News and forty-one Line City people against honest money, there is no use trying to carry the day. Pull down the flag, gentlemen, and admit that you are "licked."

THE GOSSIP OF THE CITY.

It's just such a stock as we brought here from Fond du Lac, that makes business good, not particularly with others but with us. We have never sold so many shoes in our life, and the beauty of the whole thing is, it's keeping up, with unabated success. All the fine makes of shoes in the world 50 cents on the dollar. Becker & Woodruff.

It's gratifying to know that we sell a plow, a harrow, a hayrake, a mower, a binder, a wagon and a buggy once in a while. So far this year we have sold the majority of farm machinery and buggies that has been sold in this town, and it's all because we have the best grade and lowest prices. Lowell Hardware Co.

Poor buggies can be had at almost any price, but a buggy that contains the best material and is made by skilled workmen who know how to make a buggy, is worth double the price of those others, yet we don't ask double. Wisconsin Carriage Top Co.

Put this in your pipe. Can the prices be duplicated by anybody? North Shoe Co. sold them for \$3, \$4 and \$5 a pair. We close them out at an even \$1. The sizes are 2 1/2, 3 and 3 1/2. No wonder we are a terror to high priced fellows. Brown Bros. & Lincoln.

Our guarantee on buggies should be good; but behind us stands Staver & Abbott, therefore you are accepting no chances when you buy a buggy from us for \$60 that would have cost you \$75 elsewhere. Lowell Hardware Co.

Most any minute during the day one can see a farmer loading up some farm machinery at our place, or starting away with a Staver & Abbott buggy. It must make competitors' eyes sore to see all that: Lowell Hardware Co.

MONDAY morning, we will open a sale of \$25,000 worth of clothing, the very best the world knows, at prices that none can touch. We decided to sell and we are going to do it. See prices in Monday's Gazette. Frank Baack.

A NEW advertisement of Frank Baack, the clothier and furnisher appears in this issue. It is simply a sort of a forerunner of what Frank intends doing. Monday he'll give you something in prices that will startle you.

Get around our table. You will find it loaded with the greatest bargains on the street. Don't get left we have the only bankrupt stock. Brown Bros. & Lincoln.

We guarantee our \$60 Staver & Abbott buggy to be equal to any \$75 buggy in this town. We don't \$3 \$15 for their name. Lowell Hardware Co.

Isn't it worth 20 cents to walk two blocks or ring telephone 168? That's the amount we save you on every bushel of potatoes you buy here. A. C. Munger.

EVERY shoe we have is warranted to be the best make in the world. No bankrupt stock, but prices are worse than bankrupt prices. Winslow & Lowell.

If it's a crowd of customers you wanted to see, you should have gone to Lowell & Winslow's shoe sale on S. River street today.

BARGAINS draw; that's why our store has been crowded all day with customers; every price cut in two. Lowell & Winslow.

For millinery at all prices we ask you to come here. A fine line of new hats and bonnets just received. M. A. Morrissey & Co.

We will sell you the finest shoes; men's, boys' and ladies', you ever saw, and at prices never heard of. Winslow & Lowell.

TODAY and Monday are the last days to get those 25 cent enameled cards for ten cents at Heimstreet's.

COME in and examine and see, if you do not wish to buy; come in; all are welcome. Winslow & Lowell.

We have just received a fine line of new hats, latest styles, all prices. M. A. Morrissey & Co.

We have now on hand 1500 sacks of flour; Corner Stone, Jersey Lily and Cream. Dunn Bros.

It's surprising how cheap one can buy fine shoes at Lowell & Winslow's, South River street.

THERE never was such a demand for good buggies as this season. So many inferior buggies are offered for sale that it makes such work as we put out much easier to sell. Wisconsin Carriage Top Co.

No line of shoes was ever sold like our 95 cent department. Winslow & Lowell.

NOTHING ever compared with the fine shoes we are selling. Winslow & Lowell.

COME in and see all the finest grade of shoes made. Winslow & Lowell. ENAMELED cards for two days, 10 cents at Heimstreet's.

PAPER COMPANY SUE THE MADISON TIMES

THE CREDITORS SEEK TO RECOVER THEIR PAY.

Clarence L. Clark Examined as a Witness For the Plaintiff Before a Court Commissioner Yesterday—The Claims of Both Sides—General News From About The Bower City.

THE creditors of the defunct Madison-Milwaukee Times have dug up the skeleton of that corporation, and are now trying to get their pay. An action has been begun, the complaint being made by the Badger Paper company, and the suit is brought against David S. Rose, Clarence L. Clark, H. Fehr, Edward Keogh, George B. Ziegler, J. E. Malone, J. W. Murphy, Paul J. Foley and George K. Mahoney as partners, on the claim that The Times company was never legally organized. The suit is to recover a claim of \$1,200 for paper furnished by the company to The Times people and on which it is claimed the newspaper was printed. The deposition of Clarence L. Clark was taken before a Janesville court commissioner yesterday as a witness for the plaintiff. It is held that the paper was not the kind contracted for.

An Interesting Game Played at Milton Yesterday—Other Games.

THE Janesville Lightweights drove to Milton yesterday and played the Milton College nine much to their sorrow. The game was played on the college campus, and was interesting from start to finish. There was a good-sized crowd present and the game was called at 3 o'clock. The pitching of Fred Lutz, of the Janesville, was the main feature of the game. The game was 17 to 15 in Milton's favor. Lutz and Muntz formed the Janesville battery, while Rics and Cooney played the points for the Miltons. H. A. Davis, of Independence, umpired the game.

A challenge has been received by the Janesville barbers from the captain of the Line City barbers' baseball club, wanting to play in this city a week from tomorrow. They want all of their expenses paid rain or shine, and promise to "do up" the Bower City boys in short order, and although nothing definite has been done, a game is looked for in the near future.

The Golden Eagles will leave tomorrow morning on the paper train for Madison, where they will play Madison's first nine tomorrow afternoon.

TWO SUITS AT LAW OVER ONE RUMPUS

BRADFORD TROUBLES ARE BEING AIRED IN COURT.

Robert Matheny First Sued His Mother-in-Law Before Justice Prichard To Recover \$125—She Retaliates By Charging Him In The Municipal Court, With Assault and Battery.

The good people of the town of Bradford are now furnishing Janesville with a bit of litigation that alternates between Justice Prichard's court and the tribunal presided over by Judge Phelps.

In the first place Rob. Matheny it appears, brought suit in Justice Prichard's court for \$125, claimed to be due him from his mother-in-law, Mrs. Sherwood, as wages for work on the farm. The case is being tried today.

Pending this case in Justice Prichard's court, Mrs. Sherwood secured a warrant in the municipal court and had Matheny arrested on charge of assault and battery, charging him with an assault upon her sixteen year old daughter, Jennie A. Sherwood.

This case came up in the municipal court this morning, and was continued until Tuesday. It is claimed this arrest was made in hopes of intimidating Matheny, with an idea that he would drop the civil case before Justice Prichard. It seems, however, that it did not turn out as anticipated for Justice Prichard's court was crowded to the doors during the trial of the civil case this afternoon while the assault and battery case was still in abeyance, a number of ladies being in the throng. M. P. Richardson and Henry S. Sloan appear for Matheny, and Fethers, Jeffris, Fifield & Matheson for defendant, Mrs. Sherwood.

The trial is by jury. Philo Loudon, Frank Robinson, M. G. Curtis, Frank Berger, Fred Koebelin, Edward Howland being the panel. The case will not reach a conclusion before late this evening and perhaps not until Monday.

Then they'll take up the case before Judge Phelps.

Patrick Dorsey was introduced to Judge Phelps this morning, by Patrolman Hogan, who charged him with drunk and disorderly conduct. Dorsey was adjudged guilty and sentenced to the county jail for ten days.

COUPLE ARE WEDDED IN SECRET

Rockford Girl and a Man From Elgin Are Married Here.

After Justice M. P. Richardson spoke the words that united Miss Laura Mairrett of Rockford and J. W. Bradley of Elgin, in the holy bonds of matrimony yesterday, the couple swore the justice to secrecy for ever more. When the Gazette's reporter began to question the justice he said: "Now I cannot tell you anything about this case. I absolutely refuse to tell who the parties are, where they came from or anything else. They wanted me to keep it secret a few days and I cannot do anything else under the circumstances. Come around in a week or so."

Now that was what some people would call "giving the scribe the marble heart," but as the same person might express himself again, "the song went" and the reporter had to give the justice up. But he didn't give the story up. Oh no. He began to "nose about." From the time the ceremony was performed until after the paper had gone to press last night he kept on "nosing" and finally he struck "pay dirt." Two and two were put together and finally the chain was complete.

Mr. and Mrs. Bradley were very anxious that the wedding should be kept secret. When they entered the justice's office the bride-to-be turned about and locked the door for fear some one would see them. Then she asked if they couldn't be wedded without witnesses, but that the justice said would be impossible so they called the witnesses in. The justice made a good selection in this line and the persons who signed the paper in that capacity were as close-mouthed as the justice himself, but like murder the wedding would out.

"Where did the Gazette get it?" Oh, ask The Chicago Tribune where they got their income tax decision. The Gazette's system is the same as The Tribune's and both are copy-righted.

Y. M. C. A. MALE CHORUS ORGANIZED

Director Will Be Elected and a Committee On Rules Named.

A male chorus was organized by the Y. M. C. A. at their rooms last night. Officers were chosen and an hour of practice enjoyed by twelve of the members at the close of the business session. A small fee is charged for each member and one member was instructed to secure the services of a director at once. A committee on rules was appointed and the first meeting for solid work will be held next Friday evening May 24, at 8 o'clock. Only young men who read music at sight are eligible to membership in the chorus.

LITTLE GIRL BREAKS HER ARM

Clara Craig Falls From a Hammock and Fractures a Bone.

Little twelve year old Clara Craig was carried to the office of Dr. Mills this afternoon to have a severe fracture of the right arm dressed. She was swinging in the hammock at her home in Emerald Grove, when the hammock suddenly upset. Her arm was broken above the elbow and although she suffered a great deal, she rode the eight miles to this city without a murmur.

BOY DRUNK AND NEARLY DEAD

Got His Head Caught on a Grain Bin and Couldn't Move It.

When Charles T. Wilcox went to his stable to hitch up his horse this morning he found a nineteen year old boy lying in the corner in a beastly state of intoxication. Closer investigation revealed the fact that the boy had fallen with his head on a feed box in such a way that it was gradually choking his life out, yet he was unable to make a move to help himself. Mr. Wilcox put the boy in his buggy and took him to his South Main street home and the police are now looking into the case with the probability that a prosecution for liquor selling to minors, will follow.

NEW FIRE INSURANCE COMPANY

Branch of the Badger State May Be Established Here.

O. E. Lewis, secretary of the Badger State Fire and Marine Insurance Company of Milwaukee, and C. P. Whitford of Beloit, representing the same company, were in the city interviewing business men and property owners, as well as the local stockholders of the company, with the view of establishing a local agency. The Badger State is a new company recently organized. While it is a stock company it retains the principle of co-operation as to the accumulation of its funds, also all the essential principles of mutualism in the conduct of its business, but eliminates all the uncertainties of mutual institutions.

J. E. NOLAN SHUT IN A. O. H. HALL

Mistake Caused the Popular Groceryman an Uncomfortable Imprisonment.

Yesterday afternoon when the A. O. H. returned from attending the Ryan funeral at Footville, they went direct to their hall to hang up their regalia. As they left the hall they supposed that everyone was out, and so shut and locked the door. J. E. Nolan, of the firm of Nolan Bros., was still in the hall, and when he came to go out, he found that that was not so easy. He at once began to plan on his escape, and after prying and hammering the lock, it finally yielded.

GALVANIZING WORKS ARE SOLD.

J. A. Denniston Disposed of His Plant to a Waupun Firm.

The Janesville Galvanizing Works which have been under the management of J. A. Denniston for some time past, have been sold to Althouse & Wheeler, large windmill manufacturers of Waupun, who will move the entire outfit to that city. The works did a large business, but the work done was for outside parties the iron coming as far north as Superior, and on account of the high freight rates the railroads got too much of the profits.

DEPUTY GRAND MASTER COMING

Janesville Masons Will Hold a Special Communication Monday Afternoon.

Deputy Grand Master Perry, of the Wisconsin grand lodge of Masons, will be in the city on Monday. A special communication of Janesville lodge No. 55, F. and A. M., will be held at Masonic hall at 2 p. m., the same continuing until evening, at which time the work of the Master degree will be exemplified.

STRAWBERRIES TAKE A JUMP

The Cold Weather Has a Rather Telling Effect.

The price of strawberries took a jump since yesterday from eight cents to a shilling a box, and local grocers were surprised this morning to find out that they were taxed a dollar a crate extra. The cold spell for the past week has put a check to the ripening of the fruit, besides damaging the crops to a large extent.

DAMAGE CASE ENDS WITH A NON-SUIT

POWERS WILL GET NO MONEY FROM SHIVELEY.

Case Came To a Sudden Termination When the Attorneys For the Defense Asked That It Be Dismissed And the Jury Was Excused Until Monday Morning.

The damage case of Powers against Shively ended abruptly in the circuit court today, when Judge Bennett granted a motion for a non-suit. Yesterday afternoon the testimony on the part of the plaintiff was concluded, when the defendant's attorneys entered a motion for a non-suit on the ground that the evidence presented by the plaintiff would not sustain a verdict. The remainder of the afternoon and a portion of today was occupied in arguing this motion by the several attorneys, and at the conclusion of the arguments Judge Bennett granted the motion, and the jurors were excused until 9 o'clock Monday morning.

ALL FAMILIES WANT THE GAZETTE PRIZE

BABY CONTEST IS GETTING VERY SPIRITED.

Five Hundred Dollars Worth of Building and Loan Association Stock Is a Nice Nest Egg For a Three Year Old and the Vote Between Several Contestants is Very Close.

The time is not far distant now, when some Janesville baby will get The Gazette's \$500 prize. The ballot closes June 1, and then the prize will be awarded. Five hundred dollars is a nice sum for a baby to begin life with. Put it out at interest and when the babe becomes the man or woman, enough cash for a start in life is available.

Do not think that you can sit down and wait for that \$500 to come to your home. The ballots are piling up rapidly, for, naturally enough, \$500 is enough to encourage every father and mother in Janesville to strive for that prize for their "ownest own." Competition is getting strong as the time begins to narrow down and in this case the old adage, "everything comes to he who waits" is far from true. It should be "everything comes to he who hustles." The Gazette has been asked many times to publish the vote as it stands, but this would not be fair. It would tell Brown that Jones was leading him, and The Gazette wishes to treat all hands alike. However, the count is close between several contestants up to date, and, like everything else, the "early bird," etc., applies.

The Gazette's offer is this: The baby receiving the highest number of votes will be presented with \$500 worth of stock in the Rock County Building, Loan & Savings Association.

It will buy an education.
It will buy a building lot.
It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened on May 1st and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each non-subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

Don't Tobacco Spit or Smoke Your Life Away.

is the truthful, startling title of a book about No-To-Bac, the harmless, guaranteed tobacco habit cure that braces up nicotineized nerves, eliminates the nicotine poison, makes weak men gain strength, vigor and manhood. You run no physical or financial risk, as No-To-Bac is sold by E. B. Helmstreet, under a guarantee to cure or money refunded. Book free. Address Sterling Remedy, Co. New York or Chicago.

L. R. H. Fish of Gravois Mills, Mo., a practicing physician of many years experience, writes: De Witt's Witch Hazel Salve has no equal for indolent sores, scalds and burns. It stops pain instantly, heals a burn quickly and leaves no scar. C. D. Stevens.

If the Baby is Cutting Teeth, Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

A Hop, Skip and Jump.

An athletic caper of this sort would scarcely be considered indecorous in one, even of mature age and sedate habits, impelled thereto by excess of joy on recovering his digestion through the instrumentality of Hostetter's Stomach Bitters, foremost among remedies for dyspepsia, biliousness and constipation, a trio of evils usually found in conjunction with each other. As the stomach recovers its tone, and the gastric juices are secreted in healthful plenitude through the agency of this superb restorative, nerve tranquility, appetite and sleep return, the body gains in substance and the muscles in vigor. For the prevention and cure of malarious, rheumatic and kidney trouble the Bitters is a most direct and thoroughgoing medicinal agent. Its effects are speedily felt and comprehensive.

G. A. R. Encampment at Milwaukee.

On account of the G. A. R. anniversary celebration at Milwaukee, the Northwestern line will sell excursion tickets at reduced rates on June 1 and 9, good for return passage until June 10, 1895, inclusive. For tickets and full information apply to agents Chicago & Northwestern Railway.

Sick headache, constipation and indigestion are quickly cured by De Witt's Little Early Risers, the famous little pills. C. D. Stevens.

Two Excursion Events.

For the annual encampment of the G. A. R. at Green Bay, May 22 and 23, to return May 24th, tickets on sale May 21 to 23. Rate, fare and one-third for round trip. Also for the unveiling of the Rusk monument at Viroqua, Wis., May 30. Excursion tickets at fare and a third for round trip will be sold May 29 and 30, good for return until May 31, via C. M. & St. P. Western Union Will Probably at Pin a Cable on South River Street.

The Western Union Telegraph Company having been requested to elevate their wires in front of the west side fire station, so that the firemen might use the front of the city building in manipulating their heavy ladders in practice, sent their foreman of construction, J. F. Hillan, to survey the situation and see what could be done. The request will undoubtedly be granted, and the wires will either be elevated or a cable will take the place of the wires now passing the fire station and so put up as to leave the front of that building free of obstruction.
